

Please Contribute a Poster to
The Toxicology History Room at

The Toxicology History Association seeks contributors to create new posters with a focus on a historical aspect of toxicology, public health or other areas of interest.

Our goal is to place scientific information in the context of history, society, and culture in a way that both enlightens and inspires. See www.toxhistoryroom.org for existing posters. Please contact Phil Wexler at wexlerp@mail.nih.gov with your ideas.

Poster Specification

We have adapted a portrait format as the standard that is 28 X 44 inches or 71 x 112 cm. For example see Highlights in the History of Toxicology at <http://toxipedia.org/x/tJRb>. Please submit the poster as a power point file or pdf file – see ppt template at www.toxhistoryroom.org. Also a brief description of the topic that we can post on the web site would be appreciated.

Samples of current posters

(For a full list see the web site)

Absinthe, Bisphenol-A - Historical Perspective, Brief History of Early Drug Regulation in the US, Chronology of Events of the 1984 Bhopal Accident, Highlights in the History of Toxicology, History and Perspectives on Lead, Opium History, International Union of Toxicology (IUTOX) History, Love Canal - Historical Perspective, Milestones of Toxicology, and much more.
